MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Charles Snodgrass on CIA Publications

25X1 1. Mr. Snodgrass is new to the staff of the House Appropriations Committee. Earlier, following meetings with various agency officials, he had asked to see a number of publications. This delivery prompted yet another request with emphasis on the OSR product. After discussions with [redacted] and the DDI, I put together a mixed bag of our works and went forward to see Mr. Snodgrass Wednesday afternoon, 16 April. A list of the items shown Snodgrass is attached.

2. I found Mr. Snodgrass bright, aggressive, friendly to the Agency -- and loaded with questions. We went through the various publications I had brought with me explaining how they were originated and to whom they were sent in various branches of the Government.

3. Mr. Snodgrass had just returned from a session with Danny Graham so we discussed the differing responsibilities of the two Agencies. Snodgrass, incidently, was not reticent in commenting that turning DIA loose as the sole broker for military intelligence would be like setting a rabbit out to watch the lettuce patch.

4. I told Mr. Snodgrass that we did not want to leave codeword material on the Hill overnight but that we would be happy to send material down to him in the morning and recover it in the afternoon. This was quite agreeable to him. We shall send some material down on Monday, 21 April.

25X1

5. Snodgrass would like to have a memorandum setting forth a description of our various art forms; how they are germinated; and to what level of consumer they go. While all this was discussed Snodgrass feels he needs to have something in hand when he reads our various publications to remind him what they are all about.
